PROFESSIONAL

Equinix

Software engineer (2021 - current)

I bring to the team my strengths:

- Frontend development: from mock-up proposal to implementation with ReactJS and tests with Cypress.
- Elaboration of technical documentations.

Learning backend with Python, MySQL, as well as instance management with AWS and Docker.

Cabify + Easy Taxi

Product Marketing (2017 - 2019)

- HTML & CSS layout for internal communication and technical documentation of Cabify's Product team for Latin America and Europe (2018 - 2019).

- Support team trainings (2017 - 2018), at Easy Taxi.

Product Marketing (2017 - 2019)

Previously

I worked as a journalist.
